HONGKONG, AUGUST 1st, 1882.

THE vacillation and inconsistency which have

so conspicuously marked French policy in Egypt are becoming as apparent in the course pursued towards Annam. There are not wanting signs to show that France is backing down in Cochin-China just as ebe did in Egypt. The appearance of apologetic articles which smack of official inspiration in the Saigon paper also suggests that the Government are attempting to give an artificial colouring the recent events. It was generally understood-in fact, it had been stated the French Chamber of Deputies, where a vote of credit was taken-that the object of the stipulation for opening the river Songkoi to commerce as far as it is navigable. It is now asserted by L'Indo-Chine Française that the expedition was sent to Hanoi beof the freebooters known as the Black Flag rebels, and that no demonstration was intended against Annam. We cannot accept this explanation. It does not harmonise with our belief; it is opposed to all testimony, and is not reducible to reason. The circumstances as narrated by our correspondent, whose account differed in no deal later, appeared in the Saigon paper; were that the French expedition, numbering some eight hundred men of all arms and coveral gunboats, arrived at Hanoi surrender the citadel. This they refused to do, and after due notice had been given, the fortress was bombarded and taken by storm by the French, under Commandant RIVIERE. This step was followed by the seizure and future control by the French of the Custom seemed certain that the French would then world.

proceed to open up the Songkoi to traffic, and openly take over the administration of Tonquis after purging the country from the Black Flag outlaws. But nothing more has been done, and the French forces while holding the Citadel at Hanoi have shown no disposition to meddle with the movements of the Black Flags. Until the assertion to that effect made by L'Indo-Chine Française, we certainly had no suspicion that the garrison of Hanoi Citadel included any members of the Black Flag association. Even supposing that changed with Arabi Bey. to be the case, which we do not believe, the fort was commanded by Annamite mandarins, and after its capture two of thesethe Governor-General of the province and the General in command of the troops-committed suicide rather than surrender to the Frenchi. The Black Flags were troublesome on the borders of Tonquin, but it is idle to say that they held the Citadel of Hanoi. If they had McIver, W. Reivers (Directors), W. M. Mordone so it must have been by the sanction of the Hué Government, and this is not likely as the rebels are bitterly opposed to the mail, D. J. Collago, B. Goldsmith, G. C. Coz, silver watch, value £7, the property of Colour Annamite mandaring. The real truth is, we imagine, that the French Government are 1,100 names, and gives reference to over 2,000 disinclined to become involved in a dispute on the table. It affords me pleasure to be able and he returned at 8.30. From the Siam Advertiser we gather the fol lowing notes relative to the telegraph lines t connect Siam with the outer world:-The Freuch are urging the Siamese Government to hasten on .. their part of the telegraph line to connect Saigon with Bangkok. In a few days the French part of the line will be completed to the boundary line between Cambodia and Siam, and if the Siamese Government are ready to complete their part of the line, with ordinary dispatch, there can be no reason why the people of Bangkok may not be able to communicate, by telegraph. with their friends abroad, next year. The Indian Government, it seems, have decided to continue their telegraph line from Tavoy to the Siamese say, are rather above the average of former years. boundary line, and have requested the Siamese Government to make all necessary preparations to have their line from Bangkok connected with it. The Siamese Government, however, does not abandon their design of having a telegraph along the banks of the Chow Prayah river extending to their prominent northern provinces. Siamese Government have on band a large quantity of telegraph wire, enough to enable them to complete their connection with the Saigon line. Recent orders have been sent to London for wire enough to complete their connection with the ine to Tavoy in British Barmah. Orders have the expedition to Tonquin was to enforce the likewise been given to engage in England twenty provisions of the Treaty with Annam, notably | men, possessing a practical knowledge of telegraphy, for the telegraph office at Bungkok.

Yesterday morning Major-General Sargent held his muster parade of the Buffs on the rade Ground, which takes place at the end of every month. The men were marched con cause the city had fallen into the hands to the ground at 6.30, and were drawn up in line to receive His Excellency. Before proceeding to the various evolutions, through which the men were put, General Sargent briefly addressed the men. He made reference to the war which appeared to be impending in Egypt, and said he had received a telegram from the Government at home inquirling whether he had any men who would be willing to serve in that country. trust the statement of accounts may have given satisfaction. The business of the Company is gradually expanding, and although the amount to credit of profit and loss account is not much in excess of the previous year it must be borne in mind that rates of premis throughout the world have been considerably less, and the result now attained has only been earned by a largely increasing business, which t is hoped may continue in the future. I am pleased to inform you that during the first three months of the current year the receipts have been very encouraging. Our losses, I regret to but are by no means excessive. The payment to contributors is at the same rate as last year with a small addition to the shareholders, leaving \$25,000 to be transferred to credit of reserve fund, and \$100,000 to be carried forward to the new working account. If there are any additional particulars required I will gladly furnish them as far as possible; if not I propose that the report and accounts be passed.

"I can't raise it," said the guest, after working at the window for a while "Then knock a pane of glass out" said the professor, which was done. After a while-the professor got up and broke another, then he was able to sleep; but in the morning he discovered that they had only broken into a bookense.----

Country Paper The Vienna Presse publishes intelligence from St. Petersburg which states that serious military riot has occurred at Cronstadt. It commenced in an insignificant brawl between some sailors and artillerymen of the garrison, in which gradually a large number of soldiers off duty joined. The attempts of the officers to restore order having been scornfully repulsed by the combatants, a battalion of infantry was called out but only succeeded in arresting the rioters after a severe struggle, in which many were seriously wounded on both sides.

NOW ON SALE.

MPERIAL QUARTO. TONGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN PRONUNCIATION. An Auglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given. the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, schieving a clearness not previously attained, and dispensing with those vast margins

and vacant spaces which have heretofore characterized Chinese publications. To illustrate the vast scope of the work, the following facts are submitted for consideration :-Chalmers' Vocabulary contains about 16,000 Chinese cheracters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various appli-cations and equivalents of different words which

this work contains more than five times as many as any other Dictionary hitherto pubfor practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in Chins, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted

To parties resident in England and interested in China it cannot but be invaluable occasion-It comprises upwards of two thousand large quarto pagea. A Large REDUCTION in PRICE is made to Purchasers of SIX or more Copies.
